Draw a level. Play it.

Metaview

We build AI that helps companies hire people.

01

Find people

AI finds people with the right skills and reviews applications.

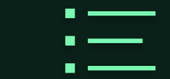

02

Meet them

AI runs first interviews and writes interview notes.

03

Choose who to hire

AI brings the evidence together so the hiring team can decide.

AI does the busywork. People make the hiring decisions.

Used by 7,000 companies

Best project overall today.

$500

for every member of the winning team.

Build an agent.
Find your way in.

Find someone who could refer you for a role.
